County begins next round of summer paving projects

Release Date: June 15, 2015

The George County Board of Supervisors is beginning the next round of summer paving projects starting June 15. Paving crews will be working in the Agricola, Benndale, Bexley, Central, Howell, and Shipman communities over the next six to eight weeks, weather permitting.

“One of the most expensive parts of paving work is the mobilization; getting the asphalt equipment moved into your county,” Board President Larry McDonald explained. “All five supervisors have been coordinating their road work schedules together for months to be ready at the same time. The paving crews and equipment are now making their way through each beat.”

This round of paving is a combination of scheduled roadway maintenance and needed repairs due to the natural gas transmission line that was installed across the County. As expected, heavy equipment usage during the gas line’s installation caused roadway damage. County supervisors are managing the repairs and costs are being paid by Boardwalk Pipeline.

Residents will only experience intermittent road closures during paving work. All drivers are asked to use caution around construction sites. Pay special attention to traffic signs, road workers and heavy equipment. The County began the first round of summer paving the week of June 1.

Below is an overview list for paving and surfacing projects by district for June through August.
