

GEORGE COUNTY CHAMBER OF COMMERCE

NEW RELEASE

GC Chamber shines Green Lights to honor 150th National Guard troops

Release Date: 03/26/18

The George County Chamber of Commerce is shining its support for the 150th BEB National Guard Unit and their families through a Green Light program.

The GC Chamber wants to give a green light bulb to every local business for them to place in their store front window or front porch. The Chamber is teaming up with our local Lucedale Wal-Mart and its “Green Light a Vet” program to offer the 38 watt indoor/outdoor light bulbs for free.

“The sendoff ceremonies are over, but our support for the 150th will shine bright for their entire deployment and beyond,” Ken Flanagan, Chamber President explained. “We need little reminders in this busy world. Every time we see a green light bulb in a local business, we will be reminded of the service of our hometown heroes.”

The 150th BEB left for deployment on Tuesday, March 20, headed to Fort Bliss, TX for additional training before leaving for Kuwait. They will be deployed for approximately 6-9 months or possibly a full year.

Any George County business, regardless of being a Chamber Member or not, can pick up a free green light bulb at the Chamber’s Main Office at 116 Beaver Dam Road beside the Lucedale Library.
