

PUBLIC PARTICIPATION SURVEY FOR HAZARD MITIGATION PLANNING

By: Nancy Smith, George County EMA Director

Release Date: Sept. 05, 2016

We need your help! Please take a few minutes to complete this survey.

The Counties of George, Hancock, Harrison, Jackson, Pearl River, and Stone are working together to become less vulnerable to natural hazards, such as hurricanes, tornadoes, and floods, as well as man-made hazards, including hazardous materials incidents, and your participation is important to us.

The counties, along with local jurisdictions and other partners, are working to prepare a multi-jurisdictional *Hazard Mitigation Plan*. This plan will identify and assess our community's natural and man-made hazard risks and determine how to mitigate, or minimize and manage, those risks.

This survey is an opportunity for you to share your opinions and participate in the mitigation planning process. The information you provide will help us better understand your hazard concerns and can lead to mitigation activities that should help lessen the impacts of future hazard events.

Please click on the link below to complete the survey. Thank you.
