## Honey Bees Floral Host Business Networking Event

Things were buzzing at Honey Bees Floral & More during the Chamber's most recent Business Networking Event, where Chamber members were able to connect with other business associates, elected officials, and friends.

Honey Bees was established in 2014 and since that time the business has continued to bloom. Honey Bees moved from their original location to a larger location at 146A E. Frontage Road in February of 2016, which has allowed them to not only expand their inventory but their talented staff, too.

Honey Bees is a full service florist offering a wide range of floral arrangements, including delivery. They carry a large selection of gifts, special religious items, offer monogramming services, and special order items, like candy arrangements.

And, if you are a George County Chamber member, you can enjoy a 20 percent discount off of any purchase of \$50.00 or more at Honey Bees! Angie, and the staff at Honey Bees, always welcome you in with a smile and are great at accommodating your budget. Call 601-947-1060 or better yet stop by and check out all that Honey Bees has to offer, you will not be disappointed.
